

Attention Trainers,

Part of the BC Health requirements is that the track know who is on grounds at all times and having their contact information. HRBC is facilitating this through a list by stable of all workers employed by a stable with their details. There is a supply of these forms at the Guard Shack and a .pdf version of the form on the HRBC website, beginning June 26, 2020. Turn all completed forms into the Security (Guard Shack) there is an envelope there for this purpose.
